

Model Curriculum

Qualification Name: Fundamentals of ESG Compliance

Micro-credential Code: SGJ/MCr-0010

Micro-credential Version: 1.0

NSQF Level: 4.5

Model Curriculum Version: 1.0

Skill Council for Green Jobs
3rd Floor, CBIP Building, Malcha Marg, Chanakyapuri
New Delhi- 110021

Training Parameters

Sector	Environmental Science
Sub-Sector	Sustainability
Occupation/Area of field	Environmental Compliance
Country	India
NSQF Level	4.5 (Micro credential)
Aligned to NCO/ISCO/ISIC Code	NCO-2015/1213.9900
Minimum Educational Qualification and Experience	Pursuing 1st year of 3-year/4- years UG OR Completed UG certificate or an equivalent qualification. OR 12th grade pass with 1.5 years of Relevant Experience OR Previous relevant Qualification of NSQF Level 4 with 1.5 years of Relevant experience OR Previous relevant Qualification of NSQF Level 3.5 with 3 years of Relevant experience
Pre-Requisite License or Training	NA
Minimum Job Entry Age	20 years
Last Reviewed On	17.12.2024
Next Review Date	16.12.2027
NSQC Approval Date	17.12.2024
Micro-credential course Version	1
Model Curriculum Creation Date	17.12.2024
Model Curriculum Valid Up to Date	16.12.2027
Model Curriculum Version	1
Minimum Duration of the Course	30 Hours
Maximum Duration of the Course	30 Hours

Program Overview

This section summarizes the end objectives of the program along with its duration.

Training Outcomes

At the end of the program, the learner will be able to:

Outcome 1: Understand the core concepts of Environmental, Social, and Governance (ESG) compliance.

Outcome 2: Gain knowledge of key ESG standards, frameworks, and reporting requirements.

Outcome 3: Develop the ability to assess and analyze ESG risks and opportunities.

Outcome 4: Acquire skills for effective ESG compliance and reporting in alignment with international and national frameworks.

Outcome 5: Learn how to choose the right ESG reporting framework and standards.

Outcome 6: Learn techniques to collect, manage, and report ESG data.

Compulsory Modules

The table lists the modules, their duration and mode of delivery.

NOS and Module Details	Theory Duration	Practical Duration/Examination/Study material/Recorded videos	On-the-Job Training Duration (Mandatory)	On-the-Job Training Duration (Recommended)	Total Duration
SGJ/MCr-0010: Fundamentals of ESG Compliance NOS Version No.1 NSQF Level 4.5	16:00	14:00			30:00
Module 1: Introduction to ESG Compliance	05.00	03.00	-	-	08:00
Module 2: Environmental, Social, Governance Aspects of ESG Compliance	06.00	06.00	-	-	12:00
Module 3: ESG Risk Management and Reporting	05.00	05.00	-		10:00
Total Duration	16:00	14:00			30:00

Module Details

Module 1: Introduction to ESG Compliance

Mapped to: SGJ/MCr-0010

Terminal Outcomes:

- Able to define ESG compliance and explain its significance in today's business environment.
- Identify the three pillars of ESG—Environmental, Social, and Governance—and understand their individual and collective impact on organizational compliance.
- Understand the business benefits of ESG compliance, including enhanced reputation, investor trust, and legal risk mitigation.

Duration: 05:00 hours	Duration: 03:00 hours
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
• Define ESG and its importance in the corporate world. • Discuss the three pillars of ESG. • Discuss the key drivers behind ESG, including regulatory demands, investor expectations, and societal pressures. • Discuss the Key environmental metrics: Emissions, water usage, waste, and energy • Discuss ESG compliance vs. ESG performance • Explain the Historical development of ESG principles. • Discuss Key milestones in ESG regulations (e.g., Paris Agreement, UN SDGs). • Explain the Impact of ESG on business operations, financial performance, and reputation. • Discuss regulatory pressures and market demand for ESG compliance. • Discuss role of stakeholders: governments, NGOs, consumers, investors, and employees. • Discuss Challenges and Opportunities in ESG Compliance.	• Prepare list of specific environmental, social, and governance practices within a industry. • Assess the Interconnection of ESG Pillars. • Prepare list of business benefits of ESG compliance, including enhanced reputation, investor trust, and legal risk mitigation.
Classroom Aids	
White boards, projectors, marker pens	
Tools, Equipment and Other Requirements	
1. Access to a computer or laptop with internet connectivity 2. Microsoft Office suite (Word, Excel, PowerPoint) 3. Access to soft copies of ESG regulations, frameworks (e.g., GRI, SASB, BRSR), and case studies. 4. Soft Copies of laws, standards, and frameworks related to ESG compliance 5. Soft copies of Case studies of ESG compliance from leading organizations. 6. Web conferencing software for virtual discussions and presentations (e.g., Zoom, Google Meet Microsoft Teams)	

Module 2: Environmental, Social, Governance Aspects of ESG Compliance

Mapped to: SGJ/MCr-.0010

Terminal Outcomes:

- Develop strategies for integrating ESG compliance into organizational processes.
- Learn how environmental, social, and governance factors apply to specific organizational operations.
- Learn best practices for managing ESG data and aligning ESG goals with business objectives.

Duration: 06:00 hours	Duration: 06:00 hours
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
• Explain Environmental Compliance in ESG. • Discuss the relationship between environmental impact and business operations. • Discuss key Environmental Regulations and Standards related to ESG. • Discuss Standards like ISO 14001 (Environmental Management Systems). • Explain Social Compliance in ESG. • Discuss the role of businesses in promoting social equity and justice. • Define (DEI) Diversity, Equity, and Inclusion and its significance in corporate culture. • Explain the importance of community feedback and stakeholder engagement. • Discuss regulatory standards for workplace safety (e.g., OSHA, ISO 45001). • Explain governance in the context of ESG. • Discuss the Role of Boards and Committees in Governance. • Discuss Ethical Business Practices and Anti-Corruption policies and procedures (e.g., anti-bribery laws, FCPA). • Discuss regulatory and Legal Frameworks for Governance aspect in ESG. • Discuss Aligning of Environmental, Social, and Governance Factors in Business Strategy.	• Prepare list of initiatives focusing on employee welfare, community engagement, or diversity and inclusion. • Prepare the list of governance responsibilities in setting ESG goals and ensuring compliance. • Draft a strategy that balances environmental, social, and governance goals. • create an integrated compliance framework addressing all three pillars. • Illustrate Case studies on successful social compliance initiatives and workforce diversity programs.
Classroom Aids	
Laptop, white board, marker, projector, charts	
Tools, Equipment and Other Requirements	
1. Access to a computer or laptop with internet connectivity 2. Microsoft Office suite (Word, Excel, PowerPoint)	

3. Access to Soft copies of ESG regulations, frameworks (e.g., GRI, SASB, BRSR), and case studies.
4. Soft Copies of laws, standards, and frameworks related to ESG compliance
5. Soft copies of case studies of ESG compliance from leading organizations.
6. Web conferencing software for virtual discussions and presentations (e.g., Zoom, Google Meet Microsoft Teams)

Module 3: ESG Risk Management and Reporting

Mapped to: SGJ/MCr-0010

Terminal Outcomes:

- Understand the key principles and frameworks used in managing ESG risks, such as risk identification, assessment, and mitigation strategies.
- Apply tools and techniques, such as risk matrices and scenario analysis, to assess and prioritize ESG risks within an organization.
- Identify and choose appropriate ESG reporting frameworks.
- Learn how to apply these standards to measure and report emissions accurately.
- Develop a sample ESG risk report, including key findings on identified risks, mitigation strategies, and performance metrics in line with reporting standards.

Duration: 05:00 hours	Duration: 05:00 hours
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
● Explain Definition and importance of ESG risks. ● Discuss types of ESG risks. ● Explain the intersection of ESG risks with traditional business risks. ● Discuss the Role of ESG Risk in Corporate Strategy. ● Explain the importance of identifying and managing ESG risks early. ● Discuss ESG Risk Mitigation Strategies. ● Explain key components of an effective ESG risk management plan. ● Explain the importance of ESG disclosures for investors, stakeholders. ● Discuss monitoring of ESG Risks with KPIs. ● Explain importance of third-party verification and assurance in ESG reporting. ● Explain how to select the appropriate ESG reporting framework and standards based on materiality definitions. ● Discuss how to collect and manage data for ESG Reporting. ● Explain how to prepare a comprehensive ESG report.	● List out key components of an ESG risk management framework. ● Prepare list of environmental, social, and governance risks in a hypothetical or real business case. ● Draft a risk management plan addressing key ESG risks such as climate change, labour issues, or governance lapses. ● Compare frameworks like GRI, SASB, BRSR to determine the most suitable ESG Reporting Framework for a business. ● Draft a sample ESG report highlighting key compliance activities and outcomes.

- Discuss Best Practices in ESG Reporting.

Classroom Aids

Laptop, white board, marker, projector, charts

Tools, Equipment and Other Requirements

1. Access to a computer or laptop with internet connectivity
2. Microsoft Office suite (Word, Excel, PowerPoint)
3. Access to soft copies or digital access to ESG regulations, frameworks (e.g., GRI, SASB, BRSR), and case studies.
4. Soft Copies of laws, standards, and frameworks related to ESG compliance
5. Soft copies of case studies of ESG compliance from leading organizations.
6. Web conferencing software for virtual discussions and presentations (e.g., Zoom, Google Meet, Microsoft Teams)

Annexure

Trainer Requirements

Trainer Prerequisites						
Minimum Educational Qualification	Specialization	Relevant Industry Experience		Training Experience		Remarks
		Years	Specialization	Years	Specialization	
Post Graduate in Science, Management, Engineering, Economics or any other relevant discipline Or Bachelors in Sciences, Economics Engineering or a related field	In-depth knowledge of climate change science, policies, and mitigation/adaptation strategies, sustainability, ESG, or compliance-related.	2 years	Work experience in climate change, Carbon accounting, sustainability reporting, ESG, or compliance-related. or related areas.	2 Years	Experience in delivering training programs on climate change, Carbon accounting, and sustainability reporting	Trainers having either of the experience will be preferred
	Familiarity with international climate agreements and their implications, Indian Environmental Laws and ESG regulations. Excellent communication and presentation skills Familiarity with carbon footprinting, emissions reduction strategies, and sustainability frameworks (e.g., GRI, CDP, BRSR).	3 years	Or Experience in conducting emissions calculations, and sustainability assessments, Indian Environmental Laws and ESG regulations. Or Demonstrated knowledge of sustainability reporting frameworks and guidelines (e.g., GRI, SASB, BRSR)	3 Years	Or Experience in designing and delivering comprehensive training modules on climate change, Carbon accounting, and sustainability reporting Or Experience in conducting workshops, seminars, and capacity-building programs for diverse audiences	
Certified under relevant Craft Instructor Training Scheme (CITS) course						

Trainer Certification	
Domain Certification	Platform Certification
“Fundamentals of ESG Compliance “SGJ/MCr-0010, v1.0”, Minimum accepted score is 80%	“Recommended that the Trainer is certified for the Job Role: “Trainer (VET and Skills)”, mapped to the Qualification Pack: “MEP/Q2601, v2.0”. Minimum accepted score is 80%”

Assessor Requirements

Trainer Prerequisites

Minimum Educational Qualification	Specialization	Relevant Industry Experience		Training Experience		Remarks
		Years	Specialization	Years	Specialization	
Post Graduate in Science, Management, Engineering, Economics or any other relevant discipline	In-depth knowledge of climate change science, policies, and mitigation/adaptation strategies, sustainability, ESG, or compliance-related Familiarity with international climate agreements and their implications Excellent communication and presentation skills	5 years	Climate change, Carbon accounting, sustainability reporting, or related areas, sustainability, ESG, or compliance-related			
Bachelors in Sciences, Economics Engineering or a related field	Familiarity with carbon footprinting, emissions reduction strategies, and carbon offsetting, Indian Environmental Laws and ESG regulations.	6 years	Climate change, Carbon accounting, sustainability reporting, or related areas, Indian Environmental Laws and ESG regulations.			
Certified under relevant Craft Instructor Training Scheme (CITS) course						

Assessor Certification

Domain Certification	Platform Certification
"Fundamentals of ESG Compliance", "SGJ/MCr-0010, v1.0", Minimum accepted score is 80%	"Recommended that the Assessor is certified for the Job Role: "Assessor (VET and Skills)", mapped to the Qualification Pack: "MEP/Q2701, v2.0". Minimum accepted score is 80%"

Assessment Strategy

This section includes the processes involved in identifying, gathering and interpreting information to evaluate the learner on the required competencies of the program.

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SDSM/SID or email
- Assessment agencies send the assessment confirmation to VTP/TC looping SCGJ
- Assessment agency deploys the ToA certified Assessor for executing the assessment
- SCGJ monitors the assessment process & records

2. Testing Environment:

- Confirm that the centre is available at the same address as mentioned on SDMS or SIP
- Check the duration of the training.
- Check the Assessment Start and End time to be as 10 a.m. and 5 p.m.
- Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.
- Check the mode of assessment—Online (TAB/Computer) or Offline (OMR/PP).
- Confirm the number of TABs on the ground are correct to execute the Assessment smoothly.
- Check the availability of the Lab Equipment for the particular Job Role.

3. Assessment Quality Assurance levels / Framework:

- Question papers created by the Subject Matter Experts (SME)
- Question papers created by the SME verified by the other subject Matter Experts
- Questions are mapped with NOS and PC
- Question papers are prepared considering that level 1 to 3 are for the unskilled & semi-skilled individuals, and level 4 and above are for the skilled, supervisor & higher management
- Assessor must be ToA certified & trainer must be ToT Certified
- Assessment agency must follow the assessment guidelines to conduct the assessment

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from assessment location
- Center photographs with signboards and scheme specific branding

- Biometric or manual attendance sheet (stamped by TP) of the trainees during the training period
- Time-stamped & geotagged assessment (Theory + Viva + Practical) photographs & videos

5. Method of verification or validation:

- Surprise visit to the assessment location
- Random audit of the batch
- Random audit of any candidate

6. Method for assessment documentation, archiving, and access

- Hard copies of the documents are stored
- Soft copies of the documents & photographs of the assessment are uploaded / accessed from Cloud Storage
- Soft copies of the documents & photographs of the assessment are stored in the Hard Drives

Glossary

Term	Description
Declarative Knowledge	Declarative knowledge refers to facts, concepts and principles that need to be known and/or understood in order to accomplish a task or to solve a problem.
Key Learning Outcome	Key learning outcome is the statement of what a learner needs to know, understand and be able to do in order to achieve the terminal outcomes. A set of key learning outcomes will make up the training outcomes. Training outcome is specified in terms of knowledge, understanding (theory) and skills (practical application).
OJT (M)	On-the-job training (Mandatory); trainees are mandated to complete specified hours of training on site
OJT (R)	On-the-job training (Recommended); trainees are recommended the specified hours of training on site
Procedural Knowledge	Procedural knowledge addresses how to do something, or how to perform a task. It is the ability to work, or produce a tangible work output by applying cognitive, affective or psychomotor skills.
Training Outcome	Training outcome is a statement of what a learner will know, understand and be able to do upon the completion of the training .
Terminal Outcome	Terminal outcome is a statement of what a learner will know, understand and be able to do upon the completion of a module . A set of terminal outcomes help to achieve the training outcome.
