SGJ/N6201: Assess demand for agri-residues and coordinate with farmers

Description

This unit is about assessing the demand for agri-residues in the market and coordinating with farmers to ensure agri-residue supply post-harvest.

Scope

The scope covers the following :

- Introduce Agri-residue supply chain
- Assess market demand for agri-residues
- Identify supplier, make negotiations and place order
- Plan on the supply

Elements and Performance Criteria

Agri-residue supply chain

To be competent, the user/individual on the job must be able to:

- PC1.** explain the importance of agri residue waste as a resource and its management
- PC2.** identify problems of agri-residue burning and need for developing biomass supply chain for various end utilizations.
- PC3.** explain various steps of biomass supply chain for collection aggregation, transportation and storage
- PC4.** identify the role of Agri-residue Aggregator in biomass supply chain and its progressive pathway
- PC5.** describe different types of farm waste and its source, supply chain and storage methodology
- PC6.** identify role of village level entrepreneurs in sourcing and selling agri- residue/biomass bales

Assess market demand for agri-residues

To be competent, the user/individual on the job must be able to:

- PC7.** Explain how to identify the methods to assess the existing agri-residue market and trading system
- PC8.** demonstrate how to assess existing agri-residue market demands and trading system
- PC9.** discuss and show how to identify the type, quality and quantity of agri-residue stock requirement by coordinating with buyer
- PC10.** discuss and show methods on how to build and maintain relationship with farmers and coordinate with them for the supply

Identify supplier, make negotiations and place order

To be competent, the user/individual on the job must be able to:

- PC11.** identify key stakeholders and method of negotiation with suppliers (farmers) for appropriate price and timely payment and explain inventory management.
- PC12.** demonstrate how to check with the farmers to know their harvesting time and estimate agri-residue quantity (demonstrate inventory management).
- PC13.** discuss and show how to ensure that the suppliers meet the quality standards set by the buyer

- PC14.** communicate on regular basis with the supplier as well as the buyer
- PC15.** demonstrate the importance of communication with suppliers and buyers and to undertake any troubleshooting with the stock/supply.
- PC16.** explain and show how to ensure a continuous and reliable supply by matching demand and supply aspects
- PC17.** undertake solving of any problems related to lack of stock in a period

Plan on the supply

To be competent, the user/individual on the job must be able to:

- PC18.** discuss and show how to provide accurate information on logistics and quality aspects of the stock
- PC19.** undertake continuity of supply
- PC20.** explain and show how to provide accurate information on logistics and quality aspects of the stock

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on incentives, delivery standards, and personnel
- KU2.** company's documentation policy
- KU3.** quality standards set by the organization
- KU4.** reporting structure of the organization
- KU5.** availability of stock with respect to season, climate etc.
- KU6.** resources and supply source planning
- KU7.** contract management
- KU8.** quality, quantity, price, source and time of the stock

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up documentation applicable to ones role
- GS2.** read vernacular/local language
- GS3.** read and understand manuals, health and safety instructions, memos, other company documents
- GS4.** ability to read from different sources- books, relevant newspapers / booklets etc.
- GS5.** express statements or information clearly so that others can hear and understand
- GS6.** participate in and understand the main points of simple discussions
- GS7.** respond appropriately to any queries
- GS8.** communicate with employees.
- GS9.** follow organization rule-based decision making process
- GS10.** take decision with systematic course of actions and/or response
- GS11.** planning and organization of work to meet deadlines
- GS12.** work constructively and collaboratively with others.

- GS13.** follow code of conduct.
- GS14.** manage relationships with customers with intent on satisfying its requirements for service delivery
- GS15.** recognize problems and search for solutions
- GS16.** choose best methods to complete assigned tasks
- GS17.** approach relevant authority when required
- GS18.** apply domain knowledge, observations and data to select course of action to perform job tasks
- GS19.** critically evaluate information obtained from customers, supervisor and co-workers to perform day to day activities
- GS20.** ask questions for better understanding.

SGJ/N6202: Set-up nodal points and procure agri-residues

Description

This unit is about setting-up of nodal (collection) points for procuring agri-residues from suppliers (farmers).

Scope

The scope covers the following :

- Set-up nodal points for collection
- Collect and procure agri-residue stock

Elements and Performance Criteria

Set-up nodal points for collection

To be competent, the user/individual on the job must be able to:

- PC1.** discuss how to assess and identify the area where collection points may be set-up
- PC2.** demonstrate how to undertake proper setup of collection points in different villages to collect the stock from various suppliers (farmers)
- PC3.** explain and show how to coordinate with different collection points (if any)
- PC4.** explain and show how to undertake acquisition of goods at best possible cost to w.r.t quality, quantity, time and location
- PC5.** discuss and show how to undertake negotiation on right prices with farmers
- PC6.** ensure payments to suppliers (farmers) after assessing quantity and quality of agri-residues

Collect and procure agri-residue stock

To be competent, the user/individual on the job must be able to:

- PC7.** ensure all the equipment, tools, logistic required for collection of agri-residues at the nodal points
- PC8.** perform routine cleaning of tools, machines and equipment
- PC9.** undertake proper collection and procurement of agri-residues
- PC10.** identify and demonstrate efficient management of inventories that are procured

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on: incentives, delivery standards, and personnel.
- KU2.** company's policies on: incentives, delivery standards, and personnel.
- KU3.** quality standards set by the organization.
- KU4.** reporting structure of the organization.
- KU5.** properties of tools and equipments required for collection of agri-residues.
- KU6.** availability of stock with respect to season, climate etc.
- KU7.** resources and supply source planning.

KU8. understanding of basic mathematical calculations.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up documentation applicable to ones role
- GS2.** read vernacular/local language
- GS3.** read and understand manuals, health and safety instructions, memos, other company documents.
- GS4.** express statements or information clearly so that others can hear and understand
- GS5.** participate in and understand the main points of simple discussions
- GS6.** respond appropriately to any queries
- GS7.** communicate with employees.
- GS8.** define organization rule-based decision making process
- GS9.** take decision with systematic course of actions and/or response
- GS10.** planning and organization of work to meet deadlines
- GS11.** work constructively and collaboratively with others.
- GS12.** prepare organization code of conduct
- GS13.** manage relationships with customers with intent on satisfying its requirements for service delivery.
- GS14.** recognize problems and search for solutions
- GS15.** choose best methods to complete assigned tasks
- GS16.** approach relevant authority when required.
- GS17.** apply domain knowledge, observations and data to select course of action to perform job tasks.
- GS18.** critically evaluate information obtained from customers, supervisor and co-workers to perform day to day activities.
- GS19.** ask questions for better understanding.

SGJ/N6203: Densify and store agri-residue bales

Description

This unit is about densification and storage of agri-residue bale stock

Scope

The scope covers the following :

- Densification and packing of agri-residue bales
- Storage of agri-residue bales

Elements and Performance Criteria

Densification and packing of agri-residue bales

To be competent, the user/individual on the job must be able to:

- PC1.** explain and show how to undertake grading and sorting of agri-residues to avoid presence of thermal residues during densification
- PC2.** explain the checklist for functioning of baler before densification
- PC3.** demonstrate checklist for the functioning of baler before densification
- PC4.** check the baler before densification of agri-residue
- PC5.** feed the hay/agri-residue into the baler properly
- PC6.** maintain the pressure of the piston press of baler
- PC7.** operate the machine appropriately
- PC8.** ensure proper collection of densified bales from the baler and appropriate storage of densified bales
- PC9.** undertake proper and good packaging management & correct placement for transportation

Storage of agri-residue bales

To be competent, the user/individual on the job must be able to:

- PC10.** undertake proper storage of agri-residue bales
- PC11.** explain and demonstrate how to maintain appropriate, temperature, humidity and controlled atmosphere during storage
- PC12.** identify waste generated and segregate those into different categories

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on: incentives, delivery standards, and personnel
- KU2.** company's documentation policy
- KU3.** quality standards set by the organization
- KU4.** reporting structure of the organization
- KU5.** availability of stock with respect to season, climate etc.
- KU6.** resources and supply source planning.

KU7. contract management.

KU8. quality, quantity, price, source and time of the stock

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up documentation applicable to ones role
- GS2.** read vernacular/local language
- GS3.** read and understand manuals, health and safety instructions, memos, other company documents.
- GS4.** ability to read from different sources- books, relevant newspapers / booklets etc.
- GS5.** express statements or information clearly so that others can hear and understand
- GS6.** participate in and understand the main points of simple discussions
- GS7.** respond appropriately to any queries

SGJ/N6204: Sales and marketing of agri-residue bales

Description

This unit is about sales and marketing of agri-residue bales.

Scope

The scope covers the following :

- Agri-residue Sales and Marketing
- Client Relationship Management
- Agri-residue transportation

Elements and Performance Criteria

Agri-residue Sales and Marketing

To be competent, the user/individual on the job must be able to:

PC1.. choose appropriate buyer in a given situation of market parameters

PC2.. identify best ways of attracting market price for agri-residues

PC3.. ensure appropriate quality as per the customer requirements

Client Relationship Management

To be competent, the user/individual on the job must be able to:

PC4.. establish cordial relations with clients involved in agri-residue purchase and use

PC5.. extract critical market information that is otherwise not in the public domain

Agri-residue transportation

To be competent, the user/individual on the job must be able to:

PC6.. decide on appropriate transportation mode based on location of departure to arrival, cost, quality, time constraints, safety, etc.

PC7.. discuss and decide on the cost involved and the routing model

PC8.. assess the entire agri-residue transport mechanism to ensure efficient and on-time delivery

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. companys policies on: incentives, delivery standards, and personnel.

KU2. companys documentation policy.

KU3. work flow involved in companys process.

KU4. importance of the individuals role in the workflow.

KU5. quality standards set by the organization.

KU6. reporting structure of the organization.

KU7. market trading systems.

KU8. customers requirement.

KU9. available transportation options.

- KU10.** preventive handling practices of agri-residue stock.
- KU11.** resources and supply source planning i.e., availability of stock with respect to season, climate etc.
- KU12.** quality, quantity, price, source and time of the stock.
- KU13.** concept of profit and loss.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill up documentation applicable to ones role
- GS2.** read vernacular/local language
- GS3.** read and understand manuals, health and safety instructions, memos, other company documents.
- GS4.** ability to read from different sources- books, relevant newspapers / booklets etc.
- GS5.** update oneself about latest technologies by reading research articles, attending seminars, conferences etc.
- GS6.** keep abreast with the latest knowledge by reading brochures, pamphlets, product information sheets etc.
- GS7.** express statements or information clearly so that others can hear and understand
- GS8.** participate in and understand the main points of simple discussions
- GS9.** respond appropriately to any queries
- GS10.** communicate with employees.
- GS11.** follow organization rule-based decision making process
- GS12.** take decision with systematic course of actions and/or response
- GS13.** plan and organize work to meet deadlines
- GS14.** work constructively and collaboratively with others.
- GS15.** follow code of conduct.
- GS16.** manage relationships with customers with intent on satisfying its requirements for service delivery.
- GS17.** recognize problems and search for solutions
- GS18.** choose best methods to complete assigned tasks
- GS19.** approach relevant authority when required.
- GS20.** apply domain knowledge, observations and data to select course of action to perform job tasks.
- GS21.** critically evaluate information obtained from customers, supervisor and co-workers to perform day to day activities.
- GS22.** ask questions for better understanding.

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

KU10. how to compute income and expenses

KU11. importance of maintaining safety and security in financial transactions

- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

SGJ/N6205: Maintain health and workplace safety

Description

This unit is about maintaining basic health and workplace safety.

Scope

The scope covers the following :

- Maintain standard health and workplace safety
- Organize safety awareness sessions and participate in safety drills
- Use and maintain protective safety gears

Elements and Performance Criteria

Maintain standard health and workplace safety

To be competent, the user/individual on the job must be able to:

- PC1.** explain and show how to keep workplace clean, organized and safe for work
- PC2.** discuss and follow on how to comply with workplace and job specific safety procedures
- PC3.** explain to ensure no accidents and damages take place at the workplace
- PC4.** discuss how to ensure proper hygiene and protection from dust and other infections
- PC5.** demonstrate good housekeeping practices and infection control guidelines
- PC6.** demonstrate the proper use of Gloves and Masks and other PPE

Organize safety awareness sessions and participate in safety drills

To be competent, the user/individual on the job must be able to:

- PC7.** discuss and identify how to communicate workplace hazards and associated emergencies to workers
- PC8.** explain and demonstrate how to organize along with attend fire drills & workplace safety workshops
- PC9.** demonstrate how to identify the location of first aid materials and administer basic first-aid
- PC10.** discuss and show how to administer basic first aid and be aware of evacuation and emergency procedures

Use and maintain protective safety gears

To be competent, the user/individual on the job must be able to:

- PC11.** explain how to ensure that PPE and other such requirements are made available at workplace at all time
- PC12.** demonstrate safe and accepted practices for personal protection

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's occupational safety and health policy.
- KU2.** company's medical policy.

- KU3.** company's medical policy.
- KU4.** personal protective equipments (PPEs) required for safe operation.
- KU5.** occupational health and safety (OHS) standards for workplace and machine safety.
- KU6.** risk identification and mitigation procedures.
- KU7.** workplace safety procedures including emergency evacuation, first aid procedures among others.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to be able to read safety instructions and warning signage
- GS2.** fill up documentation applicable to ones role
- GS3.** read instruction and safety manuals.
- GS4.** express statements or information clearly so that others can hear and understand
- GS5.** participate in and understand the main points of simple discussions
- GS6.** effectively communicate the danger.
- GS7.** make decisions pertaining to safety procedures at workplace.
- GS8.** identify need of first aid and render it accordingly.
- GS9.** report potential sources of danger and wear appropriate safety gear to avoid accidents.
- GS10.** planning of work and using tools in an organized manner to avoid accidents/incidents.
- GS11.** schedule daily activities and drawing up priorities related to workplace safety.
- GS12.** use of safety equipments such as fire extinguisher during fire accidents

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification will be created by the Sector Skill Council/Awarding Body. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC/AB will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC/AB.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the assessment, every trainee should score the Recommended Pass % aggregate for the Qualification.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification.

Minimum Aggregate Passing % at QP Level : 70

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
SGJ/N6201.Assess demand for agri-residues and coordinate with farmers	56	44	0	0	100	30

TVET	Technical and Vocational Education and Training

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
